Save Me
Muse

```
C#                  G#m
Save me from my superstitions
C#                         G#m
Now I m free from this old condition
B  Bbm  C#sus2        C#
Wait just a while
            B         Bbm     A         C#
And I ll greet you with a smile

C#           G#m
Hold me cos I m sure I hated
C#                      G#m
Promises they are overrated
B  Bbm  C#sus2        C#
Wait just a while
            B         Bbm    A         C#
While I m drowning in denial

B           G#m
Turn me into someone like you
B                G#m
Find a place that we can go to
B           G#m
Run away and take me with you
B             G#m              C#
Don t let go I need your rescue

C#                  G#m
Watch me cos I m on a mission
C#                     G#m
Hold me back so I m forced to listen
B  Bbm  C#sus2        C#
Don t let me go
          B        Bbm        A
Cos I m nothing without you oh

B           G#m
Turn me into someone like you
B                G#m
Find a place that we can go to
B           G#m
Run away and take me with you
B             G#m
Don t let go I need your rescue
```
