

Real Girl
Mutya Buena

These four chords (five, including A that is optional to play) repeat for the whole song: E, B#, D, Dm, (A). I found them by ear. Enjoy!

E

If I had one chance to

B#

In my life again

D

I wouldn't make no changes

Dm (A)

Now or way back when (yeah)

E

And if everything turns out

B#

The way I hope it goes

D

But I can't wait to find out

Dm (A)

What it is that God knows

E

But I don't wanna think about

B#

What's gonna come around for me

D

I'll just take it day by day

Cause it's the only way

Dm (A)

To be the best that I can be

E

I never pretend to be something I'm not

B#

You get what you see, when you see what I've got

D

We live in the real world, I'm just a real girl

Dm (A)

I know exactly where I stand

E

And all I can do is be true to myself

B#

I don't need permission from nobody else

D

Cause this is the real world, I'm not a little girl

Dm (A)

I know exactly who I am

E

And nothing's ever perfect

B#

There's no guarantee

D

And if I knew the answers

Dm (A)

It would put my mind at ease (no)

E

So I'll just keep on going

B#

The way I've gone so far

D

And maybe I'll end up

Dm (A)

Tryin' to catch a fallin' star (yeah)

But I don't wanna think about

What's gonna come around for me

I'll just take it day by day

Cause it's the only way

To be the best that I can be

I never pretend to be something I'm not

You get what you see, when you see what I've got

We live in the real world, I'm just a real girl

I know exactly where I stand

And all I can do is be true to myself

I don't need permission from nobody else

Cause this is the real world, I'm not a little girl

I know exactly who I am

Baby this is who I am

Don't need you to understand

Cause everything is right where it should be

It won't be long til you know about me,

Cause I don't give a...

Even when I'm out of love

Cause everything's just how it should be

And it won't be long till you know about me

I never pretend to be something I'm not

You get what you see, when you see what I've got

We live in the real world, I'm just a real girl

I know exactly where I stand

And all I can do is be true to myself

I don't need permission from nobody else

Cause this is the real world, I'm not a little girl

I know exactly who I am

I never pretend to be something I m not
You get what you see, when you see what I ve got
We live in the real world, I m just a real girl
I know exactly where I stand

And all I can do is be true to myself
