Middlename
Mxpx

```
  A         C#       G           F#
 Emotion,     is my middle name.
   B         D
 I lay in bed, and listen to the rain.
 A         C#                G         F#
 Put happy,    thoughts into my head.
     B              D
 But I find instead, the hurting words you said.

 A             C#
 Why won t you    believe me
 G            F#
 when I tell you the things that I say?
 B           D        E *
 And I ll still see you tomorrow......
                          A    C#   G (4x)
 At the show.

 A                        C#
 Its been a long-winded, long time
 G
 I wish I d never met you
  D               E *                        * E agudo
 I wish I could forget you
                        A
 and what you ve said
 A                                    C#
 You re directing your complaints toward me
 G
 I should walk away,
          D       E *                       A
 I could easily never hear a word you say.

 A          C#         G           F#
 I m not your    robot or your slave.
      B         D                     A
 I won t behave.  I m not your toy.
          C#                        G          F#
 Go on.  Go    bury me with self-righteousness
  B         D
 I confess, I m just a boy.

 A          C#
 Why won t you    believe me
 G           F#
 when I tell you the things that I say?
 B           D        E *
```

```
And I ll still see you tomorrow......
                         A   C#   G (4x)
At the show.

 A                         C#
Its been a long-winded, long time
 G
I wish I d never met you
 D              E *
I wish I could forget you
                        A
and what you ve said
A                                C#
You re directing your complaints toward me
G
I should walk away,
         D       E *                        A
I could easily never hear a word you say.

                                                                F#

 At the show.

 F#     B      D      E*      A  A
```

 Eu peguei essa cifra na página do MxPx. O que fiz foi corrigir o tempo da
música e
 acrescentar o solo (que não sei se está 100% correto, porém muito parecido!!)
 :)
