

Sad Sad Song

Mxxpx

Secret Weapon

Standard EADG

I really wanted to learn how to play the whole song, but nobody has tabbed this yet, so at least took it upon my self to tab the beginning. I know it s 100% right, so please and finish what I ve started.
h=hold

Intro:

```
G|-----6-----8-----6-----4-----|
D|--7h-----7--6-----6--4h--7-----6-----6--|
A|-----7-----|
E|-----|
```

It becomes easy with practice. This is played throughout the song, and at the end it down. You also strum the last two notes together:

Ending:

```
G|...-----|
D|...7-----|
A|...0-----|
E|...-----|
```

Enjoy!
