Soft As Snow But Warm Inside My Bloody Valentine

This is the way I play the song acoustically

CAPO 6

whole song is just C, Dm, Am, F - or without the capo F#, G#m, Ebm, B.

C Dm

Soft as snow but warm inside

Am F

Penetrate you cannot hide

Feeling lost forever

Really need you

Feeling dark and feeling true

This is all I ever knew

Soft as skin in leather

And I whisper you

Harder you come down on me

Sink away you look happily

Secrets keep forever

They re undressing me

Come inside it s warm in here

Better now to have no fear

Carried on a wave

(where it can lead) you

Touch your head, then your hair

Softer, softer everywhere

Fingertips are burning

Can I touch you there

Soft as velvet eyes can see

Bring me close to ecstacy

High away to heaven

And I m coming too

Float now coming down on me

Handed you what I cannot see

Feel the big happy, you re exploding me

Soft as snow and warm inside Penetrate then redivide Slip away forever (do we) need you
