F#min              E          D       F
And if they get me and the sun goes down into the ground

And if they get me take this spike to my heart and
F#min            E          D       F

Where they can pump this venom gaping hole
F#min             E                      D
And you must keep your soul like a secret in your throat
                    F
And if they come and get me
F
What if you put the spike in my heart

F#min        E          D         F  D  C#
