

Say So

My Favorite Highway

A - D - E - D - A

(mostly throughout the entire song)

Chorus: **A - D - E - A**

It s like we re standing outside while they re looking out the window
Picking up pace, losing control
Of all the things we are, all the things we know, it s like...
It s like I just couldn t care less, but I m wrapped around her finger
Started placing all my bets the day that we met
And staying up to late, the way you make me wait, it s like...

Don t you know if you go
You ll go without me
Don t you leave me as if you never cared at all
If you go, don t go, go without me
Don t you need me?

So say, you are my everything
Just say, I m hanging onto every word that you said
A part of me will never be the same

It s like she takes me up to ten, but she leaves me at eleven
Now you re telling all your friends everything you intend
All the things you do, I love the way you move, it s like...
She wears that little black dress, always simple, but it s sexy
I need you in your best so I won t forget
All the way, say that you love me, gotta hear you say it

You are the light up ahead at the end of the road
When I look in your eyes, girl, it feels like I m home
I need this night, yes it s late, but the morning will come
As you fall fast asleep with your head on my chest
I watch you breathe in and out as you re finding your rest
I need this night, yes it s late, but the morning will come
