Watchin a stretch of road, miles of light explode
F# **B**
driftin off a thing I d never done before
C# **B**
Watchin a crowd roll in, out go the lights it begins
F# **B**
a feelin in my bones I never felt before

People always told, that bars are dark and lonely
C# **F#**
and talk is often cheap and filled with air
Eb **C#** **F#** **B**
Sure sometimes they thrill, but nothin could ever chill
C# **F#**
like the way they make the time just disappear

C# **B**
Feelin you are here again, hot on my skin again
F# **B**
feelin good a thing, I d never known before
C# **B**
what does it mean to feel, millions of dreams come real
F# **B**
a feelin in my soul, I d never felt before mmm

Eb **C#** **F#** **B**
And you always told, no matter how long it holds
C# **F#**
if it falls apartor makes us millonaires
Eb **C#** **F#** **B**
You ll be right here forever, we ll go thru this thing together
C# **F#**
and on heaven s golden shore we ll lay our heads
