

Golden  
My Morning Jacket

Golden

**D** **C**  
Watchin a stretch of road, miles of light explode  
**G** **C**  
driftin off a thing I d never done before  
**D** **C**  
Watchin a crowd roll in, out go the lights it begins  
**G** **C**  
a feelin in my bones I never felt before

**E** **D** **G** **C**  
People always told, that bars are dark and lonely  
**D** **G**  
and talk is often cheap and filled with air  
**E** **D** **G** **C**  
Sure sometimes they thrill, but nothin could ever chill  
**D** **G**  
like the way they make the time just disappear

**D** **C**  
Feelin you are here again, hot on my skin again  
**G** **C**  
feelin good a thing, I d never known before  
**D** **C**  
what does it mean to feel, millions of dreams come real  
**G** **C**  
a feelin in my soul, I d never felt before mmm

**E** **D** **G** **C**  
And you always told, no matter how long it holds  
**D** **G**  
if it falls apartor makes us millonaires  
**E** **D** **G** **C**  
You ll be right here forever, we ll go thru this thing together  
**D** **G**  
and on heaven s golden shore we ll lay our heads
