My Morning Jacket  
Live @ Easy Street Records

**D**          **E**          **A**  
He was leading us thru the dark  
          **D**          **E**          **A**  
He was sayin that "love goes on"  
          **D**          **E**          **A**  
I was wanting some ice cream  
          **E**          **D**          **A**  
He knew exactly what I meant  
          **D**          **E**          **A**  
From the driver s seat in the dark  
          **D**          **E**          **A**  
He popped a tape in the dash of his car  
          **D**          **E**          **A**  
And when the singer started to scream  
          **E**          **D**          **A**  
I knew exactly what he meant

**A**                  **F#m**  
I never knew for sure  
          **D**          **E**          **A**  
what a wonderful man he was  
          **D**          **E**          **A**  
What a sensible man he was  
          **E**          **D**          **A**  
What a wonderful man he was

**D**                  **E**          **A**  
Why do we love what is wrong?  
          **D**          **E**          **A**  
Big devil told us to sing along  
          **D**          **E**          **A**  
And like a loving flock we obey  
          **E**          **D**          **A**  
Except for him he went his own way

**A**                  **F#m**  
I never knew for sure  
          **E**          **D**          **A**  
what a wonderful man he was  
          **D**          **E**          **A**  
What a sensible man he was  
          **E**          **D**          **A**  
What a wonderful man he was

**A** **F#m**  
I never knew for sure  
**E D A**  
what a wonderful man he was.  
**D E A**  
Till the day I found out his cause  
**E D A**  
was to do it for all of us

Any suggestions welcome. Be kind!
