You pick me up in the evening

You can make my blood run cold

A
And warm me up before sunrise

When we came upon the desert track
They were buzzing round like flies
The sound of silence through the air
Writhing blue lit up the night

Verso 3:

If we ever make it out of here
I ll tell you where to go
Wait until the evening comes
Then meet me where the roses grow

Coro:

But I can t understand what it takes to keep my mind
Oooh oooh (Take me to the place where the roses grow)
You fall through my hands
Like a desert s drifting sand
Oooh oooh (Take me to the place where the roses grow)

But I can t understand why we tread this broken land
Oooh oooh (Take me to the place where the roses grow)
We never get too far
Always crashing in your car
Oooh oooh
