N-Dubz

[Cm]

it was nothing but a quick thing

[G#]

kids games, kiss chase, just a quick fling

[D#]

[A#]

now iâ€™m telling you, you can hold this ring, watch how it glistens

it was done as quick as the wind blows

didnâ€™t think i would ever be involved

so i even wrote a song called â€˜donâ€™t goâ€™

now its just you and me on a love row

Dappy like dino us two tip toes duck dive get low

and now i care less about who knows

now weâ€™re deep in way past intro dappy explain yo

[BRIDGE][DAPPY]

see never did i think a boy like me would be in need

when all i really wanted was to have some fun

now im losing my head, im telling you one thing

youâ€™re number one

[CHORUS]

see i donâ€™t understand how youâ€™re number one

when it was just a fling before now, youâ€™re the one

see all i did was blink twice, from my homie to my only

number one

ah uh uh oh

ah uh uh oh

ah uh uh oh

ah uh uh oh

[TINCHY]

yo

it was all now never planned no after

it was like games jokes laughter

live for the moment, left it all open

now iâ€™m in deep, flames, lava, breathe, karma

and now iâ€™m stating, see i never saw this in my daydream

its really you that iâ€™m fully rating

and the days here no more waiting

pay it all wise to the smart man raised him

i was so hurt, pain, aching
on the wrong path then a good girl saved him
thatâ€™s why im letting man know sheâ€™s amazing
