

Fruit Fly
Nada Surf

tabbed by Dan Farrelly (*)

this song is tabbed using a video of Matt Caws himself showing how to play the song...so
recommend

reading the tab and watching the video it is a very easy song.

Standard Tuning: EADGBE

Intro:

You just leave your index finger on the 6th fret and play the notes on the 7th
with your middle

finger.

```
e-----|
B-----|
G-----|
D-----6--|
A-----6-6-6-7-----6-6-6-7----|
E--0-7-0-----0-7-0-----|
```

I saw a swarm of... part:

To get the right sound play these chords by hitting the side of your thumb
against the
down

by the bridge (this is where the video is helpful).

```
e-----|
B-----|
G--2--1--4--|
D--4--2--4--|
A--4--2--2--|
E-----|
```

Then when the song picks up play those same 3 chords just strum them using the
pick.
to the

song for when to change chords. Thats it.
