

Tambourine-N-Thyme

Nana Grizol

C
Jump in to that water, is it cold or is it hot,
Am
or is it nothing quite worth mentioning at all.
F
Hearts they will awaken, to remember fears of breaking
G
but all animals must answer to their call

C
It s like how when I try to write a song, sometimes the words just come out
wrong,
Am
but if I never picked the pen up, held inside and never shared
F
And oh was that so eloquent, it wasn t really what I meant,
G
at least you got the notion that I care

F **G** **Am**
And a song well sung is a sung well song so sing.
F **G** **C** **G/B** **F** **Fm**
If nothing else you must remember that you re still breathing

C
So we ignore those body parts that get so wet and get so hard,
Am
and focus on our beating hearts, your arm to hold me here to guard me
F
I can sleep alone tonight, I feel weird but that s alright
G
I m learning not to think too much, I turn the lights out and sleep tight

C
And if I make a big mistake, if anything well then it wont take
Am **F**
forever just to find myself again. In a subjective sense
F
we ve seen a lot, yeah we make the best of what we ve got
G
all we are is everything and everyone we ve ever been so...

F **G** **Am**
Tell me not to fall in love with you
F **G** **C** **G/B** **F** **Fm**
And frankly my friend I think that s the sweetest thing you do

C
Summer in my town is nice, my front porch is my paradise

Am
and I can sit here every night, yes I can watch the world go by,

F
and know that I m in motion to occasionally think of you

G
and just hope that you realize that when you sit here by my side

F **G** **Am**
whatever that implies will be just fine

F **G** **C** **G/B** **F** **Fm** **C**
My heart beats like a tambourine, it plays along in time.
