

Tambourine-N-Thyme
Nana Grizol

B
Jump in to that water, is it cold or is it hot,
 G#m
or is it nothing quite worth mentioning at all.
E
Hearts they will awaken, to remember fears of breaking
 F#
but all animals must answer to their call

B
It s like how when I try to write a song, sometimes the words just come out
wrong,
 G#m
but if I never picked the pen up, held inside and never shared
 E
And oh was that so eloquent, it wasn t really what I meant,
 F#
at least you got the notion that I care

E **F#** **G#m**
And a song well sung is a sung well song so sing.
E **F#** **B** **F#/B** **E** **Em**
If nothing else you must remember that you re still breathing

B
So we ignore those body parts that get so wet and get so hard,
 G#m
and focus on our beating hearts, your arm to hold me here to guard me
E
I can sleep alone tonight, I feel weird but that s alright
 F#
I m learning not to think too much, I turn the lights out and sleep tight

B
And if I make a big mistake, if anything well then it wont take
G#m **E**
forever just to find myself again. In a subjective sense
E
we ve seen a lot, yeah we make the best of what we ve got
F#
all we are is everything and everyone we ve ever been so...

E **F#** **G#m**
Tell me not to fall in love with you
E **F#** **B** **F#/B** **E** **Em**
And frankly my friend I think that s the sweetest thing you do

B
Summer in my town is nice, my front porch is my paradise

G#m
and I can sit here every night, yes I can watch the world go by,

E
and know that I m in motion to occasionally think of you

F#
and just hope that you realize that when you sit here by my side

E **F#** **G#m**
whatever that implies will be just fine

E **F#** **B** **F#/B** **E** **Em** **B**
My heart beats like a tambourine, it plays along in time.
