

The Loving Song
Nana Mouskouri

[Verse 1]

There s a song I hear every time you re near
That goes on and on inside my ear
It s a natural song for two, I m singing with you
It s a melody just for you and me
And it s got the sweetest harmony
And as long as you want me to, I m singing with you

[Chorus]

La la la la la la
I m singing my loving song
La la la la la la
I m singing it all day long
Not a song that s going strong
In any music chart
Just a la la la la la la
Singing in my heart

[Verse 2]

It goes round and round with a special sound
That you hear wherever love is found
And loving you like I do, I m singing with you
Nothing can go wrong when you ve got a song
And there s someone else to sing along
And I hope I will live life through, singing with you

[Chorus]
