NANA starring MIKA NAKASHIMA

I like this song a lot and I never found a tab for it, so I decided to do it myself. it might not be 100% accurate, but it's close as possible from the recording.

any suggestions or corrections are welcome. please do not modify the content of this file

or remove the author (me) from the credits. cause this is what makes us keep releasing chords for hard to find songs.

if you need something else or want to send me a comment, im at guzbh@hotmail

you might switch the D for a D5, it sounds better, at least on my acoustic guitar.
