Comin Down In The Rain Nanci Griffith

G

Flipped into the wind

C

Like the ashes of her cigarette

D

He got scattered and thrown on the breeze

G

As he tried to forget

He lost all his heat

C

And his heart never will be the same

D

He got lighter than air

G

But he ll only come down in the rain

[Verse 2]

G

Strung out and hung out to dry

C

Laughin under the line

D

It s not such a dignified place

G

But he really don t mind

G

He says with his feet on the ground

C

He d have nothin to gain

D

Claims he likes it up there

G

And he ll only come down in the rain

[Chorus 1]

Comin down in the rain

C

Washin outta the sky

D

Loaded down with the pain

G

```
There just ain t no way to fly
You can read him as clear
As the wall where he once wrote his name
It was right next to hers
But it ll only come down in the rain
[Instrumental]
[Verse 3]
Burnin himself out on a limb
Like a leaf in the fall
He blazed for awhile
Now he s feelin all dried up and small
The colors all gone
Disappeared, near as quick as it came
He says he can t stay up
But, he ll only come down in the rain
[Chorus 2]
                   Em
Comin down in the rain
Washin outta the sky
Loaded down with the pain
There just ain t no way to fly
G
You can read him as clear
As the wall where he once wrote his name
It was right next to hers
But it 11 only come down in the rain
```

G

You can read him as clear

C

As the wall where he once wrote his name

It was right next to hers

G

But it ll only come down in the rain $% \left(1\right) =\left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left(1\right) \left(1\right) +\left(1\right) \left(1\right)$
