[Lyrics Typed by: kool_rob@hotmail.com, from ohhla.com] Not from me =)

The chords used are: **Gm, D#, A#, F**

You can also use capo on fret 1: **F#m, D, A, E**

[Nas]

One more time, one more time

Huh, one more time, huh

One more time

Gm

D#

I dream of the day I could go back to when I was born

A# **F** *(and so on through the whole song)

Laying in your arms, wishing you was here today mom

Wish you would appear

Just for a second from heaven my tears would be gone

I wouldn t be rapping this song

I d be happy driving up to your 8 bed room mansion

Ablade, laughing bout the hard time we faced

The galaxy is so enchanting beyond, Galileo s understanding

Past the milky way and all the planets

There s something out there greater

But only god knows, scientist claim we came from apes

But they lies though, that was part of our conversation

I spark one up a star blazing

Thinking of how amazing she was

A angel gave me love

I m thankful, to ever know a women so real

I pray when I marry my wife ll have one of your skillz

But mom you could never be replaced

I d give my life up

Just to see you one more day

To have...

[Chorus]

One more dance with you mama

If I could only have

One more dance with you mama

Praying, wish that I could have

One more dance with you mama
If I could only have
One more dance with you mama

I wish you were here,
I miss you more each second I breathe
You resting in peace forever I accepted you free
A blessing to me, I see you dressed in all white
Smiling at me, happy knowing everything s all right
If only I could hear your voice and your laughter
Just one more time, my chest would be filled up with sunshine
April 7th, oh-two
That s when the gates of heaven opened up for you to stroll through
Beautiful Anne Jones
Job is done, raising ghetto kids in the hood
You was my strength to carry on and now I m good
Job well done, you lived through your sons and grandchildren
Jesus finally got his bride, mommy dance with him
And you ve been my guide through all the trouble I faced
They playing our song the lifebeat my hand on your waist
I grab your other hand and try not to step on your toes
Spin you around with my eyes closed
Dreaming I could have

[Chorus]

I love you forever mom
You will always live through me ... always
Huh, huh huh, yea
