```
I Will Fall
Nashville Cast
[Intro]
D G D G
[Verse 1]
I´m afraid to go up into the second floor
If you wanted to work it out whyÂ'd you lock the door
I thought I was good at loving you
But our light went out when you wanted it to
I wish you the best, IÂ'm headed west
itÂ's all I know to do
[Chorus]
I will fall, I will fall if you come around
           Bm
Just when I think my heart break has settled down
I will fall, I will fall if you come around
D G
[Verse 2]
                                      G
When we said goodbye it was forever
And I spent the last year piecing my life together
Just when I think IÂ've let you go
Your songâ's playing on the radio
And just like that it rushes back
every part of you
[Chorus]
                                              Α
I will fall, I will fall if you come around
Just when I think my heart break has settled down
```

I will fall, I will fall if you come around

```
