```

                C
I m looking at you through the glass...
                D
Don t know how much time has passed
                Em
Oh god it feels like forever
                Em                C
But no one ever tells you that forever
                D                Em
Feels like home, sitting all alone inside your head
```

How do you feel? That is the question  
But i forget.. you dont expect and easy answer  
When something like a soul becomes  
Initialized and folded up like paper dolls and little notes  
You cant expect to bitter folks  
And while your outside looking in  
Describing what you see  
Remember what your staring at is me

```

                C
I m looking at you through the glass...
                D
Don t know how much time has passed
                Em
Oh god it feels like forever
                Em                C
But no one ever tells you that forever
                D                Em
Feels like home, sitting all alone inside your head
```

(C D Em D) toda via...  
How much is real? So much to question  
And never dare make up the mannequins  
Contaminating everything  
When thought came from the heart  
It never did right from the start  
Just listen to the noises

(No more sad voices)  
Before you tell yourself  
Its just a different scene  
Remember its just different from what you ve seen
