

Bedroom Eyes

Natty

[Verse 1]

**Gm** **D#** **A#**  
**Gm**  
Step out from work, two missed calls, private number but i know its her  
**D#** **A#** **Gm**  
So I call her right back ask what time are you coming over?  
**D#** **A#** **Dm7**  
Turns up at mine, half nine, never on time  
**D#maj7** **Gm**  
looking oh so so fine  
**D#** **A#** **Gm**  
We stay up late and talk about our dreams  
**D#** **A#** **Gm**  
Oh how they differ but we ll make them meet  
**D#** **A#**  
See she s got ambitions, and I ve got visions  
**Dm7**  
She s doing hers, I m doing mine  
**D#maj7** **Gm**  
Keep telling her that we ll be fine  
**D#** **A#** **Gm**  
Sheâ€™s here to see her â€™in the cityâ€™• lover  
**D#** **A#** **Gm**  
We fight the cold together under cover  
**D#** **A#** **Dm7**  
I hope tonight will be no different from the others  
**D#maj7**  
As we set the scene, set the scene

[Chorus]

**Dm7** **D#maj7**  
She looked at me with those bedroom eyes  
**Dm7** **D#maj7**  
I broke into my come here smile  
**Dm7** **D#maj7**  
She looked at me with those bedroom eyes  
**Dm7** **F**  
I reached over and turned out the light  
**Dm7** **D#maj7**  
She looked at me with those bedroom eyes  
**Dm7** **D#maj7**  
I broke into my come here smile  
**Dm7** **D#maj7**  
She looked at me with those bedroom eyes  
**Dm7** **F**  
I realise, I realise

[Verse 2]

**Gm**                    **D#**                    **A#**  
**Gm**  
The suns gone down and the demons on the street come out to play  
**D#**                    **A#**                    **Gm**  
City lights light up, drinkers drink up, ravers rave  
**D#**                    **A#**                    **Dm7**  
Meanwhile we re inside, me and my girl  
**D#maj7**  
**Gm**  
I tell her itâ€™s your world, she says mine and we re doing all right tonight  
**D#**                    **A#**                    **Gm**  
While I play my guitar she reads her magazines  
**D#**                    **A#**  
**Gm**  
She giggles in the background looking at the singers and the beauty queens  
**D#**                    **A#**                    **Dm7**  
I turn around, to look at mine, I feel inspired  
**Dmaj#7**  
I write a couple lines and over to her I slide  
**Gm**                    **D#**                    **A#**                    **Gm**  
Sheâ€™s here to see her â€œin the cityâ€• lover  
**D#**                    **A#**                    **Gm**  
We fight the cold together under cover  
**D#**                    **A#**                    **Dm7**  
I hope tonight will be no different from the others  
**Dmaj#7**  
As we set the scene, set the scene

[Chorus]

**Dm7**                    **D#maj7**  
She looked at me with those bedroom eyes  
**Dm7**                    **D#maj7**  
I broke into my come here smile  
**Dm7**                    **D#maj7**  
She looked at me with those bedroom eyes  
**Dm7**                    **F**  
I reached over and turned out the light  
**Dm7**                    **D#maj7**  
She looked at me with those bedroom eyes  
**Dm7**                    **D#maj7**  
I broke into my come here smile  
**Dm7**                    **D#maj7**  
She looked at me with those bedroom eyes  
**Dm7**                    **F**  
I realise, I realise

[Outro]

**Dm7**                    **D#maj7**  
She looked at me with those bedroom eyes  
**Dm7**                    **D#maj7**  
I broke into my come here smile  
**Dm7**                    **D#maj7**

She looked at me with those bedroom eyes

**Dm7**                      **F**

I realise, I realise
