

Over My Head

Ne-Yo

**Em**

So I had someone, you had someone

**C**

**G**

**D**

we started out as nothing more than friends (ohh)

**Em**

but as the time i spent, started like

**C**

**G**

**D**

spending time with you more than him (ohh)

(and it wasn't what i meant to do,  
started thinking about kissing you)  
accidentally, accidentally (oh)  
(suddenly out of the blue,  
guess she was thinking about it too)  
cause you kissed me and he saw it

damn. damn.

I might be over my head  
a little over my head  
but i kinda like it  
this is not what i expected  
a little over my head  
but i kinda like it  
i kinda like it

said i kinda like it (ohh)

so of course he started acting crazy,  
wound up punching you in the eye (oh)  
he felt like the man but i felt bad  
so i called you later to apologize (oh)

(and it wasn't what i meant to do,  
started thinking about seeing you)  
accidentally, accidentally (oh)  
(suddenly out of the blue,  
guess she was thinking about it too)  
cause you came and get me and he saw you

damn. damn. damn.

I might be over my head  
a little over my head  
but i kinda like it

this is not what i expected  
a little over my head  
but i kinda like it  
i kinda like it

**C**                    **D**            (**Em**) **D C**  
this is so crazy and so hard

**C**                    **D**                            (**Em**) **D C**  
their fighting over me in the front yard  
i dont know who i should root for  
but there s one thing i do know.

**Em**                                    **C**  
I might be over my head

**G**  
a little over my head

**D**  
but i kinda like it  
this is not what i expected  
a little over my head  
but i kinda like it  
i kinda like it.

I might be over my head  
a little over my head  
but i kinda like it (but i kinda liked it)  
this is not what i expected  
a little over my head  
but i kinda like it (kinda like it)  
i kinda like it

a little over my head  
a little over my head my head my head  
a little over my head  
a little over my head
