

Happy Judgement Day
Neck Deep

Oh, what a time to be alive!

Wake up and smell the dynamite

Keep your eyes locked tight to that screen

And don't believe everything that you see

You will find modern life's a catastrophe

Is it just me or does anyone else feel like this could be farewell?

Oh, we almost had it

Then we pissed it all the way

Building walls and dropping bombs

Stop the world I'm getting off

Oh, we almost had it

Never thought I'd see the day

When the world went up in flames

We all worship celebrities, desperate for an identity

But cigarettes and MDMA don't give you substance

You don't think about what you say

Cuz your mouth is bigger than your brain

It's a shame, so fake and you're all the same

Is it just me or does anyone else feel like this could be farewell?

Oh, we almost had it

Then we pissed it all the way

Building walls and dropping bombs

C **Em**
Stop the world I m getting off
