A Place Only You Can Go
NEEDTOBREATHE

```
F#                      F#/B    F#
Pain is alive in the broken heart
                          F#/C#
The Past never does go away
        F#
We were born to love, we were born to pay
    D#m         F/C#    F#
The price for our mistakes

F#                      F#/B   F#
Grace, she comes with a heavy load
                          F#/C#
Memories, they can t be erased
       F#
Like a pill I swallow, He makes me well
    D#m         F/C#  F#
But leaves an awful taste
```

CHORUS

```
D#m               B           F#
Oh, I know this song won t do
                    B        F#
Enough to prove my love to you
D#m               B        F#
In my heart you ll always know
                      B          F#
There is a place only love can go
                      B          F#
There is a place only you can go

F#                      F#/B      F#
Take my notions and words to heart
                    F#/C#
This is the cry of a man
        F#                      F#/B  F#
I can t bring you fortune or noble life
        D#m         F/C#  F#
But I ll love you all I can
```
