Keep Your Eyes Open
NEEDTOBREATHE

```
              F#                      C#
If you could soldier on
Bbm                          F#
Headstrong into the storm
F#                  C#                      Bbm      G#
I ll be here waiting on the other side
        F#                      C#
Don t look back. The road is long
Bbm                          F#
The first days of the war are gone
F#                      C#                          Bbm          G#
Take back your former throne and turn the tide

                        C#
Cause if you never leave home, never let go
C#
You ll never make it to the great unknown till you
Bbm               F#    G#
Keep your eyes open, my love
    C#
So tell me you re strong, tell me you see
C#
I need to hear it, will you promise me to
Bbm                   F#   G#
Keep your eyes open, my love

F#                          C#
Just past the circumstance
Bbm                  F#
The first light, a second chance
F#                      C#                      Bbm          G#
No child could ever dance the way you do
      F#                      C#
Oh, tear down the prison walls
Bbm                      F#
Don t start the curtain call
F#                      C#              Bbm              G#
Your chains will never fall until you do

                        C#
Cause if you never leave home, never let go
C#
You ll never make it to the great unknown till you
Bbm               G#     F#
Keep your eyes open, my love
    C#
So show me your fire, show me your heart
```

```
G#
You know I ll never let you fall apart if you
Bbm              G#    F#
Keep your eyes open, my love

C#                    C#
Open up, open up
Bbm
Open up your eyes
G#                        F#
The weight is unbroken
C#                C#
Open up, open up
Bbm                      G#
Open up your eyes
        F#
Keep your eyes open

C#
Don t let the night become the day
G#
Don t take the darkness to the grave
Bbm                                G#
I know pain is just a place
          F#
The will has been broken
C#
Don t let the fear become the hate
G#
Don t take the sadness to the grave
Bbm                                        G#
I know the fight is on the way
                  F#
When the sides have been chosen

                        C#
Cause if you never leave home, never let go
C#                                                              Bbm
You ll never make it to the great unknown
                        G#
Open up your eyes
F#
Keep your eyes open
      C#
So tell me you re strong, tell me you see
C#
I need to hear it, will you promise me to
Bbm                G#                F#
Keep your eyes open, my love
      C#
So show me your fire, show me your heart
C#
You know I ll never let you fall apart if you
```

```
Bbm                    G#         F#
Keep your eyes open, my love
Bbm                    G#
Keep your eyes
    F#                         C#
Keep your eyes open
```

```
Bbm                    G#         F#
Keep your eyes open, my love
Bbm                    G#
Keep your eyes
    F#                         C#
Keep your eyes open
```
