

Let Us Love

NEEDTOBREATHE

Let Us Love By NeedToBreathe

Bm **G**
We were born to embrace, not accept it
A **G**
We were given nothing more, and so we kept it
Bm **G**
As the colors of our boots keep fading
A **G**
We live a life that we hate without saying
Bm **G**
Who would listen to the cries of a poor man
A **G**
We ve never done nothing How could we be something
Bm **G**
Every heart has an hour of existence
A **G**
Every breath brings a chance for redemption
Em **D**
If somehow we could wake up

Let us love

D
Like we were children

Make us feel

G
Like we re still living
Bm **A** **G**
In a world I know that s burning to the ground

Give us time

D
To beat the system

Make us find

G
What we ve been missing
Bm **A** **G**
In a world I know that s burning to the ground

Bm **G**
In the crowd of the dead and disappointed
A **G**

We re ashamed, giving up on what we wanted
Bm **G**
 Take a chance on a long shot this time
A **G**
 Aren t we all just at least worth another try
Bm **G**
 I m a king in the land of abuses
A **G**
 Undermined by the promise of excuses
Bm **G**
 Who s to win if we know that it s not fair
A **G**
 Who would fight when it seems that no one cares
Em **D**
 If somehow we could wake up

Let us love
D
 Like we were children

 Make us feel
G
 Like we re still living
Bm **A** **G**
 In a world I know that s burning to the ground

Give us time
D
 To beat the system

Make us find
G
 What we ve been missing
Bm **A** **G**
 In a world I know that s burning to the ground

Bm **A**
 It s hard to stay here but where do we go
G
 I know we can t feel it anymore
Bm **A**
 It s true that time is wearing us down
G
 We fall further and further away
D **A**
 Waiting for always to change

(Clapping)
 Let us love
 Like we were children

Make us feel
Like we re still living
In a world I know that s burning to the ground
