

Oohs And Ahhs
NEEDTOBREATHE

Oohs and Ahhs
NeedtoBreathe

This is what I got from listening to the song, hope it was helpful.

Standard Tuning

Repeat **Cm G G Cm** throughout the song

Verse 1:

Cm **G**
Take me back to a simpler time
G
I never knew the difference
Cm
And the words were mine
Cm **G**
Another man could take it all in his stride
G **Cm**
My tracks have left a stain

We were fresh coming off the vine

Thrown into a barrel of the cheapest wine

Bottled in a store with a neon sign

And we re all the ones to blame

Pre-Chorus:

Cause in our hearts we know it s true...

Chorus:

Cm **G**
We got oohs, we got ahhs
G **Cm**
We got everything a man could need
Cm **G**
We got oohs, we got ahhs
G **Cm**
Still got a mountain full of mouths to feed

Verse 2:

Tear the ocean and the skies apart

Circle up the wagons underneath the stars

Watch us spin around like a meteorite

It goes down and down and down

PRE-CHORUS

CHORUS

Bridge:

Flashing the lights

Drawing us in

Flashing the lights

And then do it again

Flashing the lights

As the sirens call

Drawing us in

So they can watch us fall

CHORUS - END
