

Dry Your Eyes

Neil Diamond

D
Dry your eyes take your song out
G
It s a newborn afternoon
D **A** **A7**
And if you can t recall the singer can you still recall the tune?
D **G**
Dry your eyes play it slowly just like you re marching off to war
D **A** **A7**
Sing it like you always wanted like you sung it once before
D **G**
And from the centre of the circle to the midst of the waiting crowd
D **A**
If it ever is forgotten sing it long and sing it loud
D **A** **A7**
And come dry your eyes

D **G**
And you taught us more about living than we ever cared to know
D **A** **A7**
And we came to learn a secret and we never let it go
D **G**
And it was more than being holy it was less than being free
D **A** **A7**
And if you can t recall the reason can you hear the people sing
D **G**
Right through the lightening and the thunder to the dark side of the moon
D **A7**
Through that distant falling angel that descended much too soon
D
Come dry your eyes

D
Dry your eyes take your song out
G
It s a newborn afternoon
D **A**
And if you can t recall the singer you can still recall the tune
D
Come dry your eyes
A **D**
Come dry your eyes
A **D**
Come dry your eyes
