

Mr Bojangles
Neil Diamond

Mr. Bojangles (partial lyrics)

I know the song, but can't remember all the lyrics, so another post there would be helpful. I'll just include the first verse so you know where the changes are.

This is easy to play, and you can make it sound good by adding little walks up and down on the bass notes. This is one of the first songs I started using bass notes on when I taught myself to play, so I'm going to spell out how to do it for any beginners.

I am using C* and G* to denote changes in bass notes. The progression for each is as follows:

C* - C bass note, strum C a couple times,
B bass note, strum C a couple times,
A bass note, strum C a couple times,
G bass note, A bass note, B bass note. (no strumming when you walk back up)

G* - Strum G a couple of times,
G bass note, A bass note, B bass note.
(note: next chord will be C or Am, with a C bass note, so it fits the progression.) Mr. Bojangles by ...?

Intro: C* a couple of times.

B*
I knew a man, Bojangles, and he danced for you,

E **F#***
In worn out shoes,

B*
Silver, a ragged shirt and baggy pants,

E **F#***
The old soft shoe,

E **B** **Eb7** **G#m**
He jumped so high, jumped so high...

C#7 **C#m7** **F#7**
And then he lightly touched down.

G#m **F#*** **G#m** **F#*** **G#m** **F#*** **B***
 Mr. Bojangles, Mr. Bojangles, Mr. Bojangles, dance..... I use standard
 chords:

B	E	or	E (barre)	C#7
