

We

Neil Diamond

Intro: **C Am** (Repeat)

C Am (Repeat)

Love is all about chemistry

Isn't something you go off to school to learn

It isn't math or ancient history

It's the kind of thing that comes down to simple terms

Dm

It's not about you

G

It's not about me

C Am (Repeat)

Love is all about we

Yes, it's all about we

C Am (Repeat)

Want to take you to that great unknown

Show you to a place you've never been

Down a road where only lovers go

But before we leave, I want to repeat again

Dm

It's not about you

And it's not about me

C Am (Repeat)

Love is all about we

All about we

It can even keep you dry on a rainy day
