

Hey Daydreamer
Neil Halstead

Artist: Neil Halstead
Song: Hey Daydreamer
Album: Palindrome Hunches

I used the live version on Vimeo for this tab. The outro-part is not included on the album (lyrics for the outro are a bit unclear, my best guess is here...). Important: With the Am-chord, pull off and hammer on the D-string. With the G-chord, hammer on the B-string on the first fret. With the F-chord, pull off the G-string.
