

Bastool Blues
Neil Young

Steve Nicholson

Barstool Blues
by Neil Young

Intro:

D (x4)

A **Em7** **D**
I could hold on to just one thought for long enough to know
A **Em7** **D**
Why my mind is moving so fast and the conversation is slow
G **D**
Burn off all the fog and let the sun through to the snow
A **G** **D**
Let me see your face again before I have to go.

I have seen you in the movies and in those magazines at night
I saw you on the barstool when you held that glass so tight
And I saw you in my nightmares, but I ll see you in my dreams
And I might live a thousand years before I know what that means

Instrumental:

A - **Em7** **D** -

Once there was a friend of mine who died a thousand deaths
His life was filled with parasites and countless idle threats
He trusted in a woman and on her he made his bets
Once there was a friend of mine who died a thousand deaths

Instrumental:

G - - **D** **A** - **G** **D** (x8)
