I'm Glad I Found You
Neil Young

  Intro: G C G G C G Em G

```
G                          C      G
So many people don t understand
G                       C
What it s like to be like me
G                             Em
But I m not different from anyone else
G          G*      G
I m glad I found you

G                          C         G
It s not that we ve got anything new
G                       C
It s not that it s any better or worse
G                           Em
the way life treats us is a blessing and a curse
G          G*      G
I m glad I found you

G                          C        G
When you re walking in a crowded place
G                       C
I ll try to hide you and give you space
G                           Em
And I ll protect you from the things that come
G          G*      G
I m glad I found you

G                          C        G
The other day when you took my hand
G                       C
We walked away to the promised land
G                  Em
when i feel your soul in mine
G          G*      G
I m glad I found you

           C
I m glad I found you in this sad world
            G
for so many things had gone wrong
           C
it took me so long just to find you
G             D
right where we belong
```

```
          C
I m glad I found you in this bad world
         G
you re a lifeline to me
            C                C
and when I hold you I will shield you
          G                  D
from the things that we both see
```

Solo: VERSE CHORDS

```
G                     C    G
So many people don t understand
G                 C
What it s like to be like me
G                           Em
But I m not different from anyone else
G             G*    G
I m glad I found you

G
I m glad I found you
G
I m glad I found you
```
