**Living With War**
**Neil Young**

(intro) **C# Bbm C# G#     C# Bbm F# G#     C# Bbm F# G#**

**C#                             Bbm                    C#      G#**
   I m living with war every day,
**C#                             Bbm                        F#                    G#**
   I m living with war in my heart every day,
**C#                              Bbm                F#       G#**
   I m living with war right now.

**C#                                                 G#**
   And when the dawn breaks        I see my fellow man,
**C#                                                 G#                     F#              C#**
   and on the flat-screen we kill and we re killed again.
**                                                 G#                          C#**
   And when the night falls,       I pray for peace,
**               G#           F#**
   try to remember peace.

**C#                                     G#**
   I join the multitudes,       I raise my hand in peace,
**C#                                     G#                          F#            C#**
   I never bow to the laws of the thought police.
**                                     G#                                C#**
   I take a holy vow        to never kill again,
**               G#        F#**
   to never kill again.

**C#                             Bbm                    F#      G#**
   I m living with war in my heart,
**C#                             Bbm                F#                          G#**
   I m living with war in my heart and my mind,
**C#                             Bbm                F#       G#**
   I m living with war right now.

**C#                                             G#**
   Don t take no tidal wave,        don t take no mass grave,
**C#                                                 G#                               F#**
**      C#**
   don t take no smokin  gun to show how the West was won.

**                                             G#                         C#**
   But when the curtain falls,     I pray for peace,
**               G#             F#**
   try to remember peace.

**C#                                             G#**
   In the crowded streets,         in the big hotels,

```
C#                                                      G#                F#           C#
    in the mosques and the doors of the old museum,
                                      G#                                C#
    I take a holy vow        to never kill again,
                   G#              F#           C# G# C#
    try to remember peace.

F#                                                                  C#
    The rocket s red glare, bombs bursting in air,
F#
 C#
    give proof through the night, that our flag is still there.

(    C# Bbm C# G#     C# Bbm F# G#     C# Bbm F# G#     )

C#                            Bbm            C#       G#
    I m living with war everyday,
C#                            Bbm              F#                  G#
    I m living with war in my heart everyday,
C#                            Bbm            F#          G#
    I m living with war right now.

C#                            Bbm            C#          G#
    I m living with war right now.
C#                            Bbm              F#                  G#
    I m living with war in my heart everyday,
C#                            Bbm            F#          G#
    I m living with war right now.

(    C# Bbm C# G#     C# Bbm F# G#     C# Bbm F# G#  C#     )
