The wagon train rolled through the dusty canyon
The settlers full of wonder as they crossed
A gentle creek wher two old oaks were standing
Before the west was won there was a cost
A rain of fire came down upon the wagons
G F#dim7
A mother screamed and every soul was lost

Change hit the country like a thunderstorm
Ancient rivers soon began to boil
People rushed like water to California
At first they came for gold an then for oil
Fortunes were made and lost in lifetimes
G D#dim7 (Riff)
Mother earth took poison in her soil

An electro cruiser coasted towards the exit
And turned on Peaceful Valley Boulevard
people make the difference read a billboard
Above a long life of odling cars
Who ll be the one to lead this world
G F#dim7
Who ll be the beacon in the night

Ab F
Who ll be the one to lead this world
Ab F
Who ll be the beacon in the night
C* G
Who ll be the one to lead the nations
Ab F
And protect God s creations

Em (en faisant sonner a vide la corde B) G Em G Em G Em G

A polar bear still drifting on an ice floe
Sun beating down from the sky
Politicians gathered for a summit
And came awy with nothing to decide
Storms thnudered on his tears of falling rain

A chid was born and wondered why
