G                                  F(addG)
There s a girl just down the aisle,
                         G
oh, to turn and see her smile.
                                  F(addG)
You can hear the words she wrote
                            G
as you read the hidden note.
G            F(addG)

G                                F(addG)
Now you re underneath the stairs
                                   G
and you re givin  back some glares
                           F(addG)
To the people who you met
                           G   C/E  G
and it s your first cigarette.
G            F(addG)

Now you say you re leavin home
                          G
 cause you want to be alone.
                         F(addG)
Ain t it funny how you feel
                             G
When you re findin out it s real?
