Intro: **Bm F#m A Bm**

**Bm F#m A Bm**  
The wagons in the valley had pulled up for the night  
**F#m A Bm**  
Seth said go get the plow out Merle, this place looks just right  
**F#m A Bm**  
By then they were surrounded, by dawn they all were dead  
**F#m A Bm**  
I heard this from the Trans-Am up the road ahead  
**E D/G E D/G**  
That cowboy just kept talking, I thought I heard him say  
**E D/G E Bm**  
He used to ride the Santa Fe before the tracks were laid

A nasty wind was blowing through the gates of Eden Park  
on was swinging and one was hanging  
and the streets all were dark  
it crawled along the boulevard with two wheels on the grass  
that old Trans Am was dying hard but it still had lots of gas  
the golden gate was open wide, the sun came shining through  
where once the angles stood and cried everything was new  
Trans **Bm**

Global manufacuting, hands across the sea  
the hotel filled with dealers, evrything was free  
before the competition, ahead of all the rest  
the product was presented, it clearly was the best  
th epower link was ruptured, the hotel shook and rolled  
the old Trans Am just bounced around and took another road

Trans **Bm**

An old freind showed up at the door  
The mile posts flying by  
he say come on, I said what for  
he said I ll show you why  
I got a call from north of here  
They said some girls broke down  
there s good money in it for you and me  
if we can get her back to town  
she s somewhere north of Barstow  
lost on 66  
an old Trans Am by the side of the road  
the needs a headlight fixed
