VERSE:

**F#**            **A**                    **B**  
First I thought we d got it wrong,  
          **Bb**            **E**                    **D**  
and then I thought we d got it made  
But something was unorganised,  
that something was just left to late

I m torn and twisted from my life,  
you picked me up and you put me down  
That something was unorganised,  
Its not enough to be around

CHORUS:

**E**                    **D**  
what will you say to me  
**E**                    **D**  
who you want me to be  
**E**                    **D**                    **C#**  
who you want me to be

VERSE:

I look inside your empty head,  
Its full of simple, cheap ideas  
A set rule of how people should be,  
to alter everyone s career

Is that how you get your kicks?  
by using a failed strategy?  
Well, your words mean emptiness,  
and that is what you mean to me
