Goodbye beloved one
Do you know what I am
If you don t see my face no more
I m a provider girl, gotta face the streets tonight

Goodbye beloved one
Do you know what I am
You don t see my face no more
I m a rider, girl gotta face the streets tonight
You say you don t want me to go but I have to
Please don t weep
I love you

(B4/E A C/G E11/B)

I refuse to be a bum
Especially coming where I m from
I m a provider girl
And I love you
So it s just like I said before
Heading down 95
Dodging Johnny law
I don t need a ticket though I never got one
If he pulls me over
He can feel my shotgun
I think about life pull down my hat
It s just like this road I don t know where I m at
I don t want to be another cocaine story
Will I find my sanity
Where I find my glory
Come on

So don t tell me you don t know what you see
When you re looking at a motherfucker just like me
I m a provider girl
I said don t tell me you don t know what you see
When you re looking at a motherfucker just like me
I m a rider girl

I love you girl

What am I supposed to do
Nothing I love you
