C#m D E (E D)
I m tired and I just don t want to go out

Those sheeple with notebooks
So unique thinking the same
Same hair cuts same club same name
Televisions, Politicians, Mentalism, Evangelism,
Stupidism always drugging the nation
Keep falling for that same game

I can t strain my brain

Can t take the blame for everything you don t know
I lock the door and at the end of the day

I m tired and I just don t want go out
Woo hoo
I m tired and I just don t want to go out
No no
Just one more thing I can do without
Woo hoo
I m tired and I just don t want to go out

G A E
It s really nothing
G A E
But I m not coming out to play
G A E
I m sure it s nothing
G A B
But I m not coming out today

I m tired and I just don t want to go out
Woo hoo
I m tired and I just don t want to go out
No no
Just one more thing I can do without
Woo hoo
I m tired and I just don t want to go out
