

**Hold On
Neverstore**

F C Dm Bb

I sing now for all of you
With no one to hold on to
For all the broken hearts out there
Waiting for someone to be near

Hold on
Hold on
For all the broken hearts out there

Long day, come home, silent welcome
Empty bedroom, wake up alone

It haven't always been this way
Memories stuck from yesterday's
A colour deep inside of me
This isn't who I wanna be

I sing now for all of you
With no one to hold on to
For all the broken hearts out there
Waiting for someone to be near
