Dead Come Alive
Written by Travis Whittaker, Tyler Joseph

Tuned half step down

[VERSE 1]

A **F#** **A/E**
Felt alone in the world on my own then You came to me

Hope flowing through my veins

I was lost in the black so far gone
A/E **A** **E**
Then You drank my shame letting sin flow through Your veins

Lord You are good oh God Youâ€™re so good
D **F#** **E**
Lord You are good oh God Youâ€™re so good

[VERSE 2]

You were there from the start before it all
Still You left Your throne love lowered down in the flesh
Born to serve born to heal and to lay your life
Youâ€™re the final offering cause up from the grave You rose

A **D** **F#** **E** **F#** **D** **A**
E
Oh Oh Oh Oh

[BRIDGE/RAP]

F#
Oh the miracle Youâ€™re the miracle
D
That makes the dead come alive
A
Oh the miracle Youâ€™re the miracle
E
That makes the dead come alive

Let me take a little second to tell you
as we see a prophecy that came true
You see we need to believe that he literally bled through

the clothes on his back his sweat the day was just like crimson rain
crimson stains tide bounty and the devil can't wash these stains away
Who's he you ask he's a friend of me
cause my inability he was sent from me
I hear birds and trees there all telling me
it's a good thing he won Gethsemane
cause this enemy is too much for me
and this flesh and world is triple teaming me
it seems to be the very end I scream please oh please pass this cup from me
The thing is it did pass and it passes every day
he took my cup from me and gracefully he drank the grave
and I don't mean to speak blasphemy when I say
but I am speaking of the day when my God passed away Okay
no wait wait wait no that's not it no that's not all
I don't wanna leave you hanging this stories banging
against my throat and against these walls
It can't be contained no it won't stay in here it will thrive
cause stories just don't die when the dead come alive
