Staircase â€" New Empire
BPM 117
[Verse]
D
                                                                   G
                                      Bm
    Late at night it s kind of early for making promises
                             Bm
   But I ll try to keep them all
                                                                   G
                                          \mathbf{Bm}
  So when it s hard and when it s easier And when it s adventurous
                                       Bm
   I just need to know you know , You know
[Chorus]
  I was standing at the staircase
 Staring into space I thought I had it all
 Just try to do it your way
D
                                                       D
                                                                Α
                                                                        Bm
G
  You ll make a lot of friends you ll make a lot of foes
[Verse 2]
                              Bm
  On your own it can be easier to do things for a while
  But these traps don t catch their own
D
                                                                G
                                          Bm
 D
   So with all this distraction And with all of my empty words
I will give you all of my soldiers hearts
```

D Staring into space I thought I had it all Just try to do it your way You ll make a lot of friends you ll make a lot of foes D Standing at the staircase Staring into space I thought I had it [Bridge] D So I climb a little higher and I ll reach a little closer to you G I ll step a little higher cause you said it s not over [Chorus 3] BmI was standing at the staircase A/F# BmStaring into space I thought I had it all Just try to do it your way A/F# You ll make a lot of friends you ll make a lot of foes Now I m standing at the staircase D A/F# Staring into space I thought I had it all Just try to do it your way D D Α BmI ve made a lot of friends, I ve made a lot of foes
