in a \*&\$# #)\$)%\*# \$)#\*%\$# place, you know what i m sayin

Hey sorry i had to block out cat pi\$#, just that i didn t know if they d accept that on tha site, anyways look out for the change in chords (its when he says you guys

can stay at my house, you guys can stay at my house then it changes back to the G9)

THERE yA GO thats it, the way he strums it and stuff is way easy just see that part of

the dvd and u ll know how to do it right away, uh i blocked out the last few words cuz

he uses some colorful wording that probably wouldnt be allowed on this site

Thanx again \*! ur awesome! JOHN (CHS RULZ!)

Hey and if i m wrong about it being a G9 dont get all mad cuz the tabs are still given

to you so u still know how to play the song
