

New Model Army

heavy distortion all through, possibly flanger
in someplaces for effect

this is how i play it, it probably isnt right but yknow!!

ebgdaD

okay this is the intro

now there s a little drum roll, |

then this chord loads | the the words start and this kicks in

```

|-----|-----|-----|
|-----|-----|-----|
|-----|-----|-----h-----|
|---7---|-----|-----4--o---7--2-4---|
|---7---|-----|-----4--l---7--2-4---|
|---7---|-----|-----4--d---7--2-4---|

```

repeat second part through verse

then , and i would help her....

```

|-----|-----|-----|
|-----|-----|-----|
|-----|-----|-----|
|--7-7-7-7---4-44---777---2--x-x-2--x-x--2222---|
|--7-7-7-7---4-44---777---2--x-x-2--x-x--2222---|
|--7-7-7-7---4-44---777---2--x-x-2--x-x--2222---|

```

And it seems... this part has one chord then loads
of muting each time

```

|-----|-----|-----|-----0-----|
|-----|-----|-----|-----0-----|
|-----|-----|-----h-----|
|--4---6---7---6---4---6--7-----4--o--2-----4-----4-|
|--4---6---7---6---4---6--7-----4--l--2-----4-----4-|
|--4---6---7---6---4---6--7-----4--d--2-----4-----4-|

```

there is a big break in the middle where its just loads of
effects and kinda little bits of chords, but i used
the verse progs on the high e string to make a fab
sounding solo, my uncle s band did it, and i
reccommend you do too!!!

well u just repeat all this till u get the soslo bit
and just end it on F5 i think
thanks, any comments just email me!!
