New Model Army

```
F Am G
Stevie said now don t look round they re watching us
F Am G
Two girls in the corner of that dodgy club
F Am G
And the grey eyes, the storm that I ve come to know and wish for
F Am G
Before I caught a breath Well she was standing there
F Am G
We walked the streets of our town just talking
F Am G
And the dawn broke grey and freezing through the deserted blocks
F Am G
Just when your life is stale and there s reason there for everything
F
Something comes to kick you up inside
```

Chorus:

A hundred thousands miles through this battle zone
Dm
C
G
G

Still high on the wire above the hollow darkness
F $\quad$ F

Trying not to look down...

Bb $\quad$ C
So rest in these open arms and cry
$\mathbf{C}$
Until they come for you and tell
Dm
And tell me everything that you ve ever felt
$\mathbf{C}$
Tell me everything you want to see

F Am G

Forever running even when we are standing still

Driven on and fired up as the whirlwinds blow
$\mathbf{F}$ Am G G
And shouting out inside $I$ m proud of you, I m proud of you
F Am

G
Ten thousand footsteps echo down the Brixton Road
