

## Headlights

### New Model Army

**Dm**

Lit up like a Christmas tree

**F** **G** **Dm**

the oil refinery glows in the night

**Dm**

and down by the shoreline

**F** **G** **Dm**

the seagulls fly white, against the black

**Dm**

The great moon riding shotgun

**F** **G** **Dm**

rolling out across the veil of clouds

**Dm**

and you were small, and lying awake

**F** **G** **Dm**

listening to the noises in the house.

**Bb** **A**

With the best of them you ran

**C** **G**

like all of us, in our season

**Bb** **A**

Casting memory aside

**C** **G**

your history, all forgotten

**Bb** **A**

driven onwards through the years

**C** **G**

in love with each distraction

**Bb** **E**

But all the while, the past is close behind

**G** **Bb**

like headlights on your tail

**Dm**

headlights on your tail.

**Dm**

Your pulse is beating faster now

**F** **G** **Dm**

like a bird flying hard against the wind

**Dm**

trying to understand all the

**F** **G**

crazed compulsions that you feel.

**Dm**

And all the little jealousies and

**F** **G** **Dm**

betrayals, they echo in the dark;

**Dm**

and somewhere back through it all

**F**                    **G**                    **Dm**

the key is still turning in the lock.

**Bb**

**A**

**C**

**G**

So now the ghosts that you have laid, they all come out to greet you

**Bb**

**A**

**C**

**G**

And the knowledge that you ve gained - well, none of this protects you

**Bb**

**A**

**C**

**G**

You ve been so very far, still peace will not embrace you

**Bb**

**E**

for all the while the past is close behind

**G**

**Bb**

**Dm**

Like headlights on your tail, headlights on your tail
