New Model Army

D Em Bm G Em
They found us in the courtyard at our table in the shade
D A Em G
We toasted our last few moments and then the end came
D Em Bm G Em
They took us back to the airstrip in that beaten up old car
D A Em G
And we rattled across the African scrubland in silence
E G E G
Our hands locked together with cold steel cuffs
E G
Sometimes I wish it was still that way

D Em Bm G Em
Now a whole world has died since then, so many faithless days
D A Em G
I was born alone and lucky and I m just used to it that way
D Em Bm G Em
My dice still roll in sixes and yours still turn up ones
D A Em G
And I have taken my good fortune and I ve run and run
E G E G
But I always swore I d come back for you
E G
Is it too late now to come back for you ?

D Em Bm G Em
Now beneath this lonely junction on the northbound M6
D A Em G
We spray our words of signature on the concrete bridge
D Em Bm G Em
And between the words of wisdom and the slogans of despair
D A Em G
Someone s just gone and written I m sorry there
E G E G
Well I always swore I d come back for you
E G
Is it too late now to come back for you?
E G
You re the only one I ll ever love
