

Winter

New Model Army

VERSE

**Bm** **A6/9** **Bm** **A6/9**  
Well I dreamed that I was running, through a wilderness of plenty  
**Bm** **A6/9** **Bm** **A6/9**  
And I could hear the hunt behind me, getting closer, getting closer  
**Bm** **A6/9** **Bm** **A6/9**  
And I knew that the end was coming and I wished that it was over  
**B5** **Bsus4/A** **Bm** **A6/9**  
Bring me the snowfall, bring me the cold wind, bring me the winter

**Bm A6/9**

VERSE

**Bm** **A6/9** **Bm** **A6/9**  
And now the mercury keeps rising, like the sap and the blood and the oceans  
**Bm** **A6/9** **Bm** **A6/9**  
And the asphalt acres melting, in the fetid air of poison  
**Bm** **A6/9** **Bm** **A6/9**  
And I can hear the soldiers coming and I wish that it was over  
**B5** **Bsus4/A** **Bm** **A6/9**  
Bring me the snowfall, bring me the cold wind, bring me the winter

**Bm A6/9**

VERSE

**Em** **B7sus/E** **Em** **B7sus/E**  
I felt them tugging at my shoulder to come and join in the celebrations  
**Em** **B7sus/E** **Em** **B7sus/E**  
To mark the triumph of the Emperor, the all-conquering ever-lasting summer  
**Bm** **A6/9** **Bm** **A6/9**  
And the streets were awash with the blood of the innocents, sacrificed to  
slaughter  
**Bm** **A6/9** **Bm** **A6/9**  
The crowds all drunk on power and madness as the noise grew ever louder  
**Bm** **A6/9** **Bm** **A6/9**  
And I could hear the knives being sharpened and I wished that it was over  
**B5** **Bsus4/A**  
Bring me the snowfall, bring me the cold wind  
**B5** **Bsus4/A**  
Bring me the snowfall, bring me the winter

**Bm A6/9**

BRIDGE

**Esus4**                      **E7sus4**                      **E5**  
Let all the sins of the past be buried in the frozen ground  
                                 **Asus2**                      **E5**  
Let the last of the vengeance fires die  
                                 **Asus2**                                      **G**  
The back wings flying high above the skeleton trees  
                 **Asus2**                      **Em**              **Em7**  
Disappear into the white

VERSE

**Bm**                      **A6/9**                      **Bm**                      **A6/9**  
So let the weary land be rested and the killing season over  
                 **Bm**                      **A6/9**                      **Bm**                      **A6/9**  
Let the shadows stretch forever in the light of burnished silver  
                 **B5**                      **Bsus4/A**                      **Bm**                      **Bsus4/A**  
For I fear the age of consequence and I wish that it was over  
                 **B5**                      **Bsus4/A**                      **Bm**                      **Bsus4/A**  
I fear the age of consequence and I wish that it was over  
                 **B5**                      **Bsus4/A**                      **Bm**                      **Bsus4/A**  
I fear the age of consequence and I wish that it was over  
                 **B5**                                      **Bsus4/A**  
Bring me the snowfall, bring me the cold wind  
                 **B5**                                      **Bsus4/A**                                      **Bmadd9/E**  
Bring me the snowfall, bring me the cold wind, bring me the winter
